Subject: FW: IHW Draft work plan - for EPA review

Mike/Sean attached is the outline of our proposed work plan regarding 001. Please review and provide any proposed comments.

Thanks
Kevin Doyle

This is an outline of a work plan for field and analytical work for IH CWTP Outfall 001 for discussion with EPA. A separate outline will be prepared for IH West Outfalls 009 & 010 for discussion with the Coast Guard. Both plans will rely on the same background sampling sites. One field study will be conducted to support both work plans.
